## About Me

BSc Biological Science graduate (Eastern University) with specialised training in NMRA regulatory affairs and drug licensing. Uniquely combines scientific expertise in Chemistry, Zoology, and Botany with software engineering skills. Expert in data analysis and documentation, seeking a role in quality assurance or laboratory science to drive process efficiency.

## Skills

- Problem Solving & Team Cooperation
- Knowledge related to Pharmacology, Drug Regulation
- Effective Communication, Knowledge Sharing, Project Management & Critical Thinking
- Time Management, Leadership, Adaptability, Organisational Skills & Customer Service
- Marketing and skills
- Leadership

## Education

- Bachelor of Science in Biological Science  
*Eastern University Sri Lanka* 2022 - 2026  
Expected Graduation Date :2026
- Bachelor of Software Engineering (Honors)  
*The Open University of Sri Lanka* 2021 - 2026  
Expected Graduation Date :2026
- National Diploma in Sales Management  
*Sri Lanka Institute of Marketing (SLIM)* 2025  
Apprentice Pharmacist Sri Lanka 2021 - Present
- *Medical Council*  
Expected Graduation Date :2026
- GCE Advanced Level (A/L) In Biological Science (2020)  
Biology :C  
Physics :C  
Chemistry :C

## Experience

- Regulatory Affairs Assistant  
*Pharma Associates Colombo-14* 2021 - 2022  
Experienced in pharmacology with hands-on expertise in drug licensing, approvals, and regulatory submissions at the National Medicines Regulatory Authority.  
Strong team collaboration skills, ensuring efficient and timely operations.
- Web Developer Intern  
*Aus-eTech, Product Development* 2025(3 month)  
Worked on building and maintaining web apps with Next.js, fixing bugs, improving performance, writing clean code, and managing daily GitHub commits.

## Projects

- Environmental Impact Assessment (EIA) Report  
Conducted a detailed study on the environmental feasibility of a polythene manufacturing facility in Gampaha. Analyzed chemical and biological parameters (BOD, pH, VOC emissions) to ensure compliance with CEA standards. Formulated mitigation strategies for industrial waste management and biodiversity protection.
- Research on Feeding Behaviour of Oryctolagus cuniculus  
Studied dietary selection and diurnal feeding patterns of European Rabbits relative to environmental factors. Analysed selective herbivory and foraging efficiency to determine optimal nutritional management. Identified key behavioural parameters for laboratory-scale animal husbandry and welfare.

## LANGUAGES

- **Sinhala** - Native
- **English** - Intermediate

## CERTIFICATIONS

- **open Learning Platform University of Moratuwa 2023-2023**

Python for Beginners & Python Programming

Web Design for Beginners, Front-End & Server Programming  
Professional Practice in Software Development

- **Certificate in Software Development Atari City Campus 2018-2018**

- **SoloLearn Certificates:** Successfully earned 8 certificates on SoloLearn. [View Testimonials](#)

- **Future Careers BRIDGE Programmed:** Completed Fundamental Level and Customer Service courses offered by SLASSCOM. (Student ID No: 16874)

- **Completion of a Mobile Application:** Contributed to the successful completion of a mobile application project using Android Studio.

## EXTRACURRICULAR

- **Senior Student Leader:** Demonstrated leadership from 2015 to 2018.

- **2017 Debate Team Member**

- **School Leadership Roles:**

President of School Science Club (2015-2017)  
Secretary of the School Buddhist Association (2016-2017)

- **Participation in Science Quiz Competition:**

Actively participated in Science Quiz Competitions at the Divisional (2015 - 2017)

- **Achievements in Regional Sports Competitions:**

Attained excellence in regional-level sports competitions.

- **Mangrove Restoration Initiative Organized** by Department of Forestry, Eastern University (2025)
